A SEVERE BLIZZARD

STORM RAGING THROUGHOUT THE MOUNTAIN REGION.

COLORADO HIT HARD

A Foot of Snow at Denver.—Stockmen Suffer Heavy Losses.—West Indian Hurricane Does Great Damage in Central America.—Snow Here Earliest in Years.

Denver, Colo., Oct. 22.—The storm throughout the mountain region which began here with rain Friday, changing to snow Saturday, subsided this morning. It is said to have been the severest storm in this vicinity in October since 1892. There was more than a foot of snow on the level, and the melted snow measured one and eight-tenths inches. The temperature generally fell to 20 degrees. Locally but little damage was done. The sheepmen in Wyoming, Colorado and New Mexico, it is believed, will suffer heavy losses, as they were unprepared for such severe weather. Hundreds of tons of sugar beets and thousands of barrels of apples are still in the open in the northern part of Colorado, and should the cold continue the damage will be very great to the ranches. Telegraphic service throughout the west is badly hampered, and trains indefinitely late.

Severe Blizzard Raging.

Colorado Springs, Oct. 22.—The severe blizzard which has been raging here for the last 48 hours broke this morning. Heavy snows are reported in the mountains, and trains are somewhat delayed. The temperature here this morning was fifteen above zero.

Pueblo, Colo., Oct. 22.—The blizzard which has been raging in this city and vicinity since early Saturday afternoon slightly abated this morning. Railroad and street car traffic is badly crippled. The Rio Grande west of Pueblo suffered most from snow which is unusually heavy along its line, ranging from sixteen inches at Florence to thirty inches at Buena Vista. Cattle and other stock suffered.

A special from Beulah, 28 miles west of this city, at noon today, says 42 inches of snow fell there, and is still falling.

Ellis, Kan., Oct. 22.—A snow storm from Colorado passing east prevailed today in western Kansas. Passengers reaching here this morning on belated east-bound trains reported a heavy snow storm between Ellis and Denver, at some points assuming the proportions of a blizzard with from four inches to more than a foot of snow on the ground. The snow is drifting badly at a good many points.

Snow in Minnesota.

Duluth, Minn., Oct. 22.—A blanket of heavy snow, six inches or more, fell last night in northeastern Minnesota, covering the Vermillion and Mesaba ranges and extending as far west as Fosston.

Railroad Service Disorganized.

Salt Lake City, U., Oct. 22.—Railroad service between Salt Lake and Ogden is utterly disorganized. The

terrible wind Saturday night and Sunday morning carried down all telegraph wires, making the dispatching of trains in regular order impossible. Without telegraph service, the Rio Grande is still moving a few trains. The Oregon Short Line is blocked by a wreck near Woods, where thirty freight cars were blown from the track during the storm. Two passenger coaches on the Salt Lake and Ogden railroad were blown from the tracks near Centerville. The conductor and two passengers were injured. The Salt Lake and Ogden line is blocked by many trees blown across the track. In Salt Lake City more than two thousand shade trees were uprooted, and throughout the city frail buildings in course of construction were wrecked.

Much Damage at Ogden.

Ogden, U., Oct. 22.—A windstorm of sixteen hours' duration that ended at four o'clock this morning, killed one, injured many and did \$100,000 damage to property. Barns were overturned, roofs blown off, plate glass windows smashed, trees uprooted and telegraph and telephone poles prostrated. The Catholic church suffered the greatest damage. The old church was blown down and the new one unroofed and a costly mosaic window demolished.

Two to Four Feet of Snow.

Colorado Springs, Oct. 22.—A special from Cripple Creek this afternoon says: Two feet of snow has fallen in Cripple Creek up to noon today, and it is still snowing. At Divide, 20 miles distant on the Colorado Midland railroad, four feet of snow is reported.

West Indian Hurricane.

Mobile, Ala., Oct. 22.—The first direct news of the terrible West Indian hurricane which visited the towns of Ruatan, Tela, Utilia, Colorado and El Progreso, Honduras, on October 12, was brought here last night by the Norwegian steamer Harold which arrived with a cargo of fruit. A number of vessels were wrecked, and several buildings destroyed or badly damaged in each of the towns mentioned. The loss to owners of fruit plantations will, it is stated, reach almost a million dollars. The British steamer Southern Queen was blown on the beach at Ruatan and went to pieces in less than an hour. The Harold suffered somewhat and will be docked. A tidal wave accompanied the hurricane and swept everything before it. Captain Henrichsen reports that when he left the beaches were strewn with vessels of all kinds, including three sailing vessels. No lives were reported lost.

General District Forecast.

Denver, Colo., Oct. 22.—Frederick H. Brandenburg, district forecaster, makes the following special forecast of weather conditions: There has been practically no change in the distribution of pressure in the last 24 hours. The intensity of the high area overlying the northern half of the Rocky Mountain region, however, is less marked, and the southwestern low area has begun to fill up. Snow has been general in the last 24 hours in southern Wyoming, Colorado, northern New Mexico and northern Arizona, while rain has been falling in the upper Mississippi valley and along the Atlantic coast. Snow is indicated for this afternoon and tonight in southern Wyoming, Colorado and northern New Mexico. Tuesday fair with rising temperature except in New Mexico.

Earliest Snow in Years.

The first snow of the season and the earliest in years, fell over Roswell and vicinity last night and part of this morning. It was such a soft snow and the air was so warm that it lasted scarcely long enough to

make a showing on the ground, but it was snow. The chilly, damp wind was more disagreeable than the snow itself. Old timers say that this is the earliest snow in their memory in Roswell, but there are no accessible records on the subject. The first snow last year fell on December 11. The first killing frost last year came October 28. The thin blanket of snow presented an odd sight on the green foliage and blooming flowers this morning.

REV. WM. REACE GOES TO RATON

Roswell M. E. Church Gets New Pastor, But Had Asked for Return of Old One.

Bishop David H. Moore, of Denver, read his appointments of ministers in the English Mission of New Mexico, at the Roswell M. E. church Saturday night, and to the surprise of many of the local congregation, Rev. Wm. Reace was sent to Raton, and Roswell was given Rev. Mr. Murray, of Ouray, Colo. The local church had asked for the return of Rev. Mr. Reace, who has been here three years and endeared himself to the entire membership. The appointments for the district were as follows: Superintendent, Rev. Sam'l Blair, El Paso. Alamogordo, Rev. C. F. Lucas. Albuquerque, Rev. J. C. Rollins. Clayton, Rev. H. C. Grimmell. Kenton, O. T., Rev. J. L. Freeman. Las Vegas, Rev. H. Van Valkenburgh.

Raton, Rev. Wm. Reace. Roswell, Rev. Mr. Murray. Santa Fe, Rev. C. E. Anderson. Santa Rosa, Rev. A. M. Harkness. Silver City, Rev. J. M. Jackson. Silver City Circuit, to be supplied. Springer, Rev. Mr. Finley. Cimarron Valley, to be supplied. Estancia, to be supplied. Dr. A. P. Morrison, former superintendent, goes to Butte, Mont., as pastor.

Rev. Wm. Reace Goes to Raton. Rev. Wm. Reace's work in Roswell has been almost phenomenal. When he came the membership totaled 20, and they had no idea of getting a building at any time soon. Now there are 110 members and they have an elegant church edifice which cost \$6,600. And the church stands without a debt against it since the dedication Sunday morning.

Bishop Moore was in charge of the dedication. The service was opened with a musical program, following which the Bishop preached a splendid sermon. When about to dedicate the building to the worship of God, he remarked that the only thing that prevented its dedication was a debt of \$1,979 which stood against it. In just fifteen minutes \$2,350 had been raised, and the choir had to be started singing to stop the people from giving still more. Furthermore, there were just 128 people in the congregation. This was the most wonderful record, everything considered, in Bishop Moore's long record of raising church debts. The church dedication was a most beautiful and impressive service.

It might be stated with interest that this small congregation, of 110 members, has raised and paid out, for all purposes, within the year, \$4,000.

Rev. Mr. Reace and wife will leave next week for their new home in Raton, and Roswell's new pastor is expected about the same time. Mr. Reace will receive a salary of \$1,200 and the use of a fine parsonage at Raton. His many friends here, both in and out of the Methodist church, wish him success in his new field.

We have just received a new car of Greeley potatoes. Joyce Fruit Co.

Morrison's Window Won Prize. The committee, consisting of Mrs. Lucy K. Hurd, Mrs. Carrie McIntyre and Judge G. A. Richardson, appointed to determine the "most appropriately decorated Elk window," has awarded the prize of \$25, offered by the Elks, to Morrison Brothers. It was the opinion of the committee that the window of the Pecos Valley Drug Co. was perhaps the most elaborately decorated one in the city, but in point of appropriateness, it fell behind Morrison's and a few others. They also submit the following for honorable mention: Ullery Furniture Co., E. H. Williams & Co., Dilley Furniture Co., Pecos Valley Drug Co., Kipling's candy store, Daniel & Daniel, C. H. Edwards (New York Store) Joyce-Fruit Co., Jaffa, Prager & Co., Rothenberg & Schloss, T. C. Stewart & Co. The prize for exterior decoration was not awarded, as none were considered eligible.

A 60 acre farm fronting on 2nd Street, 1 1/2 miles from city limits for sale at a bargain. The improvements consist of a small house, some orchard, 10 acres in alfalfa, an artesian well and good fencing. We can give a bargain in this property, either for cash or will trade for Hondo or other lands. When we say we can sell at a bargain we mean that we can sell for much less than its real worth. You may tear down the house, fill up the well, grub out the orchard and destroy the alfalfa and the place is worth more money than our price. See us at once. Carlton & Bell.
